

# Amoladora recta GGS 5LS

|     |                  |
|-----|------------------|
| SKU | 0601.224.2E0-000 |
| EAN | 4053423342529    |

## Alcance de la entrega

|                                             |   |
|---------------------------------------------|---|
| Collet 6 mm with nut (1 619 P21 168)        | ✓ |
| 1 x single head wrench 17mm (1 619 P10 039) | ✓ |
| 1 x single head wrench 15mm (1 619 P21 698) | ✓ |

## Datos técnicos

|                                     |                                                                                                                                                     |
|-------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Potencia útil                       | 320,0                                                                                                                                               |
| Peso                                | 1,600                                                                                                                                               |
| Velocidad en vacío                  | 7,000 – 32,000 rpm                                                                                                                                  |
| Velocidad de giro en vacío, hasta   | 32.000,0                                                                                                                                            |
| Velocidad de giro en vacío, desde   | 7.000,0                                                                                                                                             |
| Max. polishing tool diameter        | 40,0                                                                                                                                                |
| Ø máx. de muela abrasiva            | 25,0                                                                                                                                                |
| Ø máx. de pinza de sujeción         | 6 mm<br>3 mm<br>1/4"                                                                                                                                |
| Potencia absorbida                  | 550,0                                                                                                                                               |
| Interruptor                         | Lockable Switch                                                                                                                                     |
| Cara del husillo amolador           | 15,0                                                                                                                                                |
| Cara de la tuerca tensora           | 17,0                                                                                                                                                |
| Ø del cuello del husillo            | 43,0                                                                                                                                                |
| Información adicional versión corta | The GGS 5 LS Professional has an ergonomic handle and a slim body. Its spare parts are interchangeable with parts from other Bosch angle grinders . |
| Tolerancia K                        | 3,0                                                                                                                                                 |
| Nivel de presión acústica           | 81,0                                                                                                                                                |
| Nivel de ruido                      | The A-rated noise level of the power tool is typically as follows: Sound pressure level 81 dB(A); Sound power level 92 dB(A). Uncertainty K= 3 dB.  |
| Nivel de potencia acústica          | 92,0                                                                                                                                                |
| Quantity per pallet                 | 120                                                                                                                                                 |
| Peso neto                           | 2,400 kg                                                                                                                                            |
| Peso bruto                          | 2,400 kg                                                                                                                                            |

## Beneficios del producto

- Better tool control thanks to speed selection system
- Higher working efficiency with 550 W motor
- Enhanced user safety with restart protection
